4. D	4. DESIGNATED AIRSPACE APPROVALS/EQUIPMENT COMPLIANCE GUIDANCE												
4.1	1 In support of the declaration statement at section 5 you must provide certification evidence that the aircraft is												
	suitably equipped for the designated airspace approval requested. Submit applicable documentation from the												
	list below for each designated airspace approval requested.												
	a) Pages from the airplane flight manual or supplement that state what designated airspace the aircraft is												
	equipped for and which should include the designated airspace approvals requested. As an example: if												
	approval for MNPS is requested then the airplane fight manual should indicate MNPS certified.												
	b) If the airplane flig	ht manual refer	s to service bulle	tins (SB) that sh	ould be emb	odied to ensi	ure equipment						
	compliance then a copy of the SB should also be submitted in order to demonstrate compliance OR certification evidence of compliance if a service bulletin was embodied at initial build.												
	c) Where a Supplementary Type Certificate (STC) has been embodied to ensure equipment compliance this												
	should be submitted.		, ,				•						
			mbodied to ensu	re equipment co	ompliance, a	modification	list identifying						
	d) Where a modification has been embodied to ensure equipment compliance, a modification list identifying the relevant modification number and aircraft serial number should be submitted.												
	e) If there is no cert					d) above, the	en certification						
	evidence is required					-							
	aircraft is suitably eq

5. C	DECLARATION												
I declare that the aircraft complies with the navigation specification of the designated airspace approvals requested													
and procedures are in place in the Operations Manual that meet the operational criteria of each designated airspace for which approval is sought. Flight crews are suitably trained and are competent to operate in the designated													
airspace requested and appropriate procedures have been instituted in respect of continuing airworthiness to ensure													
continued conformity and the MEL amended accordingly.													
Name		THE IVILL UTTETIOE	a accordingly.
